

MEMORYKICK MEDIACENTER HDD™

**Conveniently play, store
or transfer media files
on-the-go, without a PC!**

▶ **MediaCenter HDD™ Media Manager, Viewer, & Player**

As the world's first full featured compact OTG MediaCenter HDD, the **MemoryKICK MediaCenter HDD™** is your portable media solution. Acting as a "host" to all of your portable devices, the **MemoryKICK MediaCenter HDD™** replaces the need for a PC or laptop to transfer media files directly from your MP3 Player, digital camera, digital camcorder, USB Flash drives, & External Hard Drives.

With its groundbreaking design - **Only 3/4" thick!** Hosting capabilities, and high storage capacities, the **MemoryKICK MediaCenter HDD™** will revolutionize the way we share, store, and transfer our personal media files. With astonishing built-in hard drive capacities of 30, 60 and 120GB this Media Center HDD™ is sure to fulfill all of your "On-the-go" needs.

▶ **DIRECT CONNECT FEATURE**

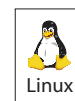

In addition to the built-in multiple card reader, the MemoryKick Ultra™ is equipped with a USB 2.0 direct connect feature. Videos, music, and personal files transfer **directly** to the **MemoryKICK MediaCenter HDD™** from any of your portable devices! (digital cameras, mp3 players, PDAs, phones, etc.)

▶ **PORTABLE MEDIA FEATURES**

With Windows CE Operating System and enhanced audio/video support built into the device, you can preview and enjoy all of your media files directly from the **MediaCenter HDD™**.

**AVAILABLE IN 5 EXCITING
COLOR COMBINATIONS!**
